Our Beginners' Class teacher training certified over 65 teachers around the globe last year.

The 90-minute Beginners' Class has been a common experience of many yoga practitioners, IYSF members and yoga sport competition participants, around the world over many years. We have therefore decided to help protect this special therapeutic yoga practice by conducting an Yoga Sport World Beginners' Class Teacher Training program for new teachers, under the supervision of the IYSF President, Rajashree Choudhury.

The YSW Beginner's Class Teacher Training is an 6-week onsite program for brand new teachers who have been practicing for at least 6 months in their home studios. This program is on-site education only, happening in four regions - Australasia, Europe, Latin America and North America.

In addition to the Beginners' Class Teacher Training program, there will also be a two-week Teaching Upskilling program with Rajashree, available to certified hot yoga teachers, and a one week Yoga Sport Class (intermediate) training.

Each regional training program will be run by an experienced senior teacher - coordinator, with the assistance of one dedicated official guest teacher responsible for delivering information based yoga content each week.

Program Goals:

To offer an educational program, run simultaneously in four regions, under the supervision of IYSF president, Rajashree Choudhury.

This Beginners'TT Program will train yoga enthusiasts and yoga sport practitioners to become competent 90-Minute Beginners' Class teachers. This qualification will open up a further opportunity for those teachers who wish to continue further training to become Intermediate Yoga Sport Class teachers.

The Teacher Upskilling Program will provide a continuing education opportunity to all existing Beginners' Class teachers, so that they may increase their knowledge base and teaching competency.

Yoga sport practitioners, and enthusiasts of intermediate and advanced yoga practice are welcome to join us during the last Yoga Sport week of training. On top of the regular 90-minute Beginners' Class there will be a 90-minute Intermediate Yoga Sport Class each day and 90-minute skills and drills session. Those classes will be taught by IYSF certified A level coaches.
